ABOUT THE COMPANY

IC Solution (ICS) is a digital service provider that aims to provide software, designing and marketing solutions to individuals and businesses. At ICS, we believe that service and quality is the key to success

We provide all kinds of technological and designing solutions from Billing Software to Web Designs or any custom demand that you may have. Experience the service like none other!

Some of our services include:

Development - We develop responsive, functional and super-fast websites.

We keep User Experience in mind while creating websites. A website should load quickly and should be accessible even on a small view-port and slow internet connection.

Mobile Application - We offer a wide range of professional Android, iOS & Hybrid app development services for our global clients, from a start up to a large enterprise.

Design - We offer professional Graphic design, Brochure design & Logo design. We are experts in crafting visual content to convey the right message to the customers.

Consultancy - We are here to provide you with expert advice on your design and development requirement.

Videos - We create a polished professional video that impresses your audience.

OVERVIEW OF THE PROJECT

Project Name: Tribute to Doctors

Team Members: Prajwal I

Muralidhar A C

This project is based on Web Development And its Applications. The main objective of this project is to learn the implementation of HTML, CSS and JavaScript. The basic webpage of this project is created using HTML and styling of the webpage is done using CSS.

This webpage is to Tribute to Doctors who have sacrificed their lives during covid-19 second wave.

P1

TOOLS USED

Software Requirements

- Visual Studio Code 2019.
- Google Chrome or Microsoft Edge of latest version.
- Front End: HTML, CSS, JS (optional)
- Linux 7.1 or Windows XP/7/8/10 OS or Mac OS

Hardware Requirements

- Pentium 200-MHz computer with a minimum of 64 MB of RAM (128 MB of RAM recommended).
- Monitor with a refresh rate of at least 40Hz for a smooth GUI experience (optional).

P1

IMPLEMENTATION

Source Co de (P1.HTML):

```
<!DOCTYPE html>

<html lang="en">

<head>

    <meta charset="UTF-8">

    <meta http-equiv="X-UA-Compatible" content="IE-edge">

    <title>Thankyou Doctors</title>

    <link rel="stylesheet" href="main.css">

    <link
href="https://fonts.googleapis.com/css?family=Dosis&display=swap"
rel="stylesheet">

            <p><b>Kudos</b> to doctors and nurses working in  
gruelling shifts and barely getting enough sleep or rest. Doctors and  
nurses working in hospitals and that too in wards with the Coronavirus  
patients, have been going through a hard time and are completely  
exhausted by the time their day ends. According to a report by the IE,  
many nurses, when they go back to their block to sleep, have stretch  
marks and bruises on their face due to wearing the masks and goggles  
stretched across their faces continuously. Not only this, in some  
cases, the limbs ache too from wearing PPE suits which may be available  
in a smaller size. The report said that healthcare workers dread taking  
a shower too as that would moisturize their body and increase the risk  
of infection if they have any viral residual on their body.</p>

About my TEAM

Here by myself Prajwal I (1KI18EC031) and my classmate Muralidhar A C (1KI19EC407) teamed up and completed the project-1 which is front end development on a concept of “ Tribute to Doctors”.

Both of us learnt much more things apart from training while making the project. And still we have lot more to learn. Both of us worked consistently detailing each other's works and finding faults and mismatches.

We missed working with other 2 teammates of our team assignment by company , but due communication problem with them we lost connection with them . Even though we overcame this challenge by working overtime and making an extra effort to ensure that both of us were in the loop regarding daily project statuses. The release went off without a hitch.
